

ORGANISATIONAL PROFILE

Summary

Life Helpers Initiative [LHI] is a Nigerian non-governmental organization working in the development and humanitarian sectors using an integrated approach to reach and support marginalized populations, including children, youth, women, people living with disabilities, and men, through community structures.

Life Helpers was established on October 1st, 2004, as the Beulah Project, supporting children at the Orphanage. It was later renamed Life Helpers Initiative in 2006 as it expanded its scope and registered with the Corporate Affairs Commission, Abuja, by September 2007, CAC/IT/25232, with office presence in Adamawa, Bauchi, Benue, Borno, Ebonyi, FCT, Katsina, Kebbi, Plateau, Yobe, and Zamfara States.

❖ Vision

A more fulfilled life for everyone.

❖ Mission

To be a leading non-governmental organization working to maximize all opportunities to empower marginalized people.

❖ Philosophy

Touching Lives,
Transforming Households,
Impacting communities;

❖ Values

Our values are coined from our acronym - LHI

Love: We passionately foster a friendly working environment that promotes unity and kindness as we exhibit professionalism and excellence in our services

Honesty: We act and communicate clearly and always honor our commitments.

Inclusion: We welcome all individuals without discrimination and ensure equal access and opportunities to our clients and staff.

❖ Motto

Putting A Smile On A Face

Our Strategies

Our Strategies

1

S-C Strengthening Capacities

Building the technical, managerial, and operational competencies of individuals, communities, and institutions to deliver and sustain development outcomes.

Core focus areas

- Workforce development (staff, volunteers, frontline workers)
- Community capacity building (CBAs, WDCs, youth groups)
- Institutional strengthening (CSOs, local partners)
- Knowledge transfer and continuous learning

2

S-S Strengthening Systems

Improving the structures, processes, and frameworks that govern service delivery—especially within health, education, and social systems

Core focus areas

- Systems strengthening
- Data systems and M&E frameworks
- Institutional governance and accountability
- Policy implementation support

3

S-PC Strengthening Partnership & collaboration

Building and managing strategic relationships with stakeholders to enhance resource mobilization, coordination, and program effectiveness.

Core focus areas

- Donor and development partner engagement
- Government collaboration (federal, state, LGA levels)
- Private sector partnerships
- Consortium and multi-partner project implementation

4

S-NL Strengthening Networking & Linkages

Facilitating connections between communities, services, and institutions to ensure continuity of care, support, and opportunities.

Core focus areas

- Community-to-facility linkages
- Referral networks (health, protection, education)
- CSO and community networks
- Knowledge-sharing platforms

Thematic Focus

At Life Helpers Initiative, our work is organized across six integrated thematic areas designed to address the multidimensional needs of vulnerable populations and strengthen community resilience.

HEALTH

MNCH, Nutrition, WASH, Immunization, Malaria, SRH, HIV/AIDS & TB

EDUCATION

Early Child Development, Formal & Non-Formal Education, Education Governance & Complementary Educational Services

PROTECTION

Violence against Women & Girls; Child Protection

SOCIAL INCLUSION

Governance, Peace Building & High-level Advocacy

LIVELIHOODS

Technical & Vocational Training, Group/Village Savings & Loan Associations, Business, Entrepreneurial Development & Financial Literacy, Multi-Purpose Cash Assistance.

FOOD SECURITY

Agriculture, Small Ruminants / Aquaculture, Food Supplies / Supports, climate Adaptation

❖ The Human Ecosystem

LHI, with over 350 staff members and more than 700 community volunteers, has an active BoT with the National Management Team, which comprises of the Senior Leadership Team

Project Experiences

In the last 2 decades, Life Helpers Initiative has successfully implemented over 45 projects across different locations in Nigeria, in various thematic areas. These projects have directly reached over 1.5m people in more than 400,000 households. With qualified and experienced staff members, a robust and appropriate internal system, digitally-driven organization infrastructure, Life Helpers has demonstrated capacities, competencies, and value-for-money in its implementations with evidence of donor satisfactions.

The table summary highlights selected projects implemented

Project Experiences

DONOR	Project Title	OVERVIEW
ECHO/UNICEF	Delivery of Quality and relevant education to children in emergencies and non-emergency settings to access quality basic education, reduce out- of- school rate, and enhance school completion and transition to junior secondary education	The project aims to provide quality basic education to out-of-school children (including Almajiri learners, girls, and children with disabilities) affected by conflict and displacement. Key targets include: 3,083 OOSC (1,850 female, 1,233 male) enrolled in ABEP; 924 children mainstreamed into formal schools; 5,819 OOSC reached via emergency radio learning; and 420 facilitators trained (105 initially + 315 during crisis modifier launch).
UNOCHA	Multi-Sector Life-Saving Assistance and Targeted Nutrition Response	The project aims to deliver multi-sector life-saving humanitarian assistance in Northeast Nigeria while providing targeted nutrition response interventions in Northwest Nigeria. Under the pre-award arrangement, IRC authorized LHI to begin implementing activities outlined in the approved technical proposal and budget pending execution of the full partnership agreement
UNESCO	Delivesry of quality Family Life HIV Education (FLHE) and Education for Health and Wellbeing (EHW)	The project aims to support the delivery of quality Family Life HIV Education (FLHE) and Education for Health and Wellbeing (EHW) that empowers adolescents and young people while building skills to prevent HIV, reduce unintended pregnancies, and eliminate gender-based violence in schools. Key targets include: conducting 10 consultative visits with government ministries; training 120 community, religious, and traditional leaders on SGBV, early/unintended pregnancy prevention, child marriage, and reintegration of teenage mothers; training 2,000 teachers from a minimum of 450 primary and secondary schools on FLHE/EHW; training 20 peer educators per school in 30 selected schools; supporting reintegration of 10 teenage mothers and dropout girls back to school; training 30 health service providers in adolescent reproductive health; documenting a minimum of 30 health service uptakes; facilitating youth engagement activities; and developing 2 IEC materials plus 3 media and digital community engagements.

Project Experiences

DONOR	Project Title	OVERVIEW
ZOA (Canadian Foodgrains Bank)	Lean Season Food Assistance in Goronyo and Rabah LGAs of Sokoto State	The project aims to improve food security and protect vulnerable households during the annual lean season by providing food assistance to communities experiencing heightened food insecurity in Goronyo and Rabah Local Government Areas (LGAs) of Sokoto State. The intervention seeks to reduce the impact of seasonal food shortages, prevent negative coping mechanisms, and support the nutritional well-being and resilience of affected populations. The project specifically targets food-insecure and vulnerable households, including women, children, and other at-risk community members living in the two target LGAs. Life Helpers Initiative (LHI) is responsible for implementing project activities in accordance with the approved work plan, budget, and donor requirements under the funding agreement with ZOA.
UNOCHA	Life-saving Integrated Health and Nutrition Interventions for Women and Children Facing Acute Malnutrition in Borno and Yobe States	This project is designed to provide integrated, life-saving health and nutrition interventions to women and children suffering from or at risk of acute malnutrition in humanitarian-affected communities. The intervention aims to reduce morbidity and mortality by ensuring timely access to essential health services, nutrition screening, treatment and referral for acute malnutrition, and other critical health and nutrition support. The project specifically targets women and children, particularly those living in vulnerable and crisis-affected communities in Borno and Yobe States, where humanitarian needs remain severe. The project is implemented by Life Helpers Initiative (LHI) in partnership with Save the Children International (SCI) under funding from UNOCHA's Nigeria Country-Based Pooled Fund (CBPF).

Project Experiences

DONOR	Project Title	OVERVIEW
EU/UNICEF	Strengthening of RMNCH+NM Quality of Care in Primary Health Care facilities of Sokoto States Nigeria	The project aims to strengthen maternal, newborn, and child health (MNCH) services in Sokoto State by enhancing health worker skills (e.g., Specialized Newborn Care, Kangaroo Mother Care, Helping Babies Breathe) and improving service delivery quality. LHI will use a 3-layered strategy of training, mentoring, and supportive supervision across 1 Tertiary Hospital (Sokoto Specialist Hospital), 23 General Hospitals, and 244 Primary Healthcare Centers (one per ward) .
ZOA Canadian Foodgrains Bank	Stabilizing food security of households affected by the humanitarian crisis in Wurno and Kware LGAs	The project, implemented by Life Helpers Initiative (LHI) in partnership with ZOA, aims to stabilize food security for households affected by the humanitarian crisis in Wurno and Kware Local Government Areas of Sokoto State.
CDCS/ALIMA	Provision of emergency medico-nutritional services to displaced and host populations in Borno (Jere LGA) and Yobe (Bade LGA) states, Nigeria	The project, implemented by Life Helpers Initiative (LHI) as an implementing partner to ALIMA, aims to reduce morbidity and mortality among host and displaced populations in Borno and Yobe States through emergency medico-nutritional services.
UNDP	Promoting CSO-led peacebuilding initiatives in the Lake Chad Basin sub-region	A consortium-led project implementation activity in selected locations in Borno, Adamawa, and Yobe States, deploying location-specific interventions that cut across peacebuilding initiatives, livelihood development, protection using knowledge-strengthening platforms, agriculture-based supports, as well as institutional building targeting the marginalized populations

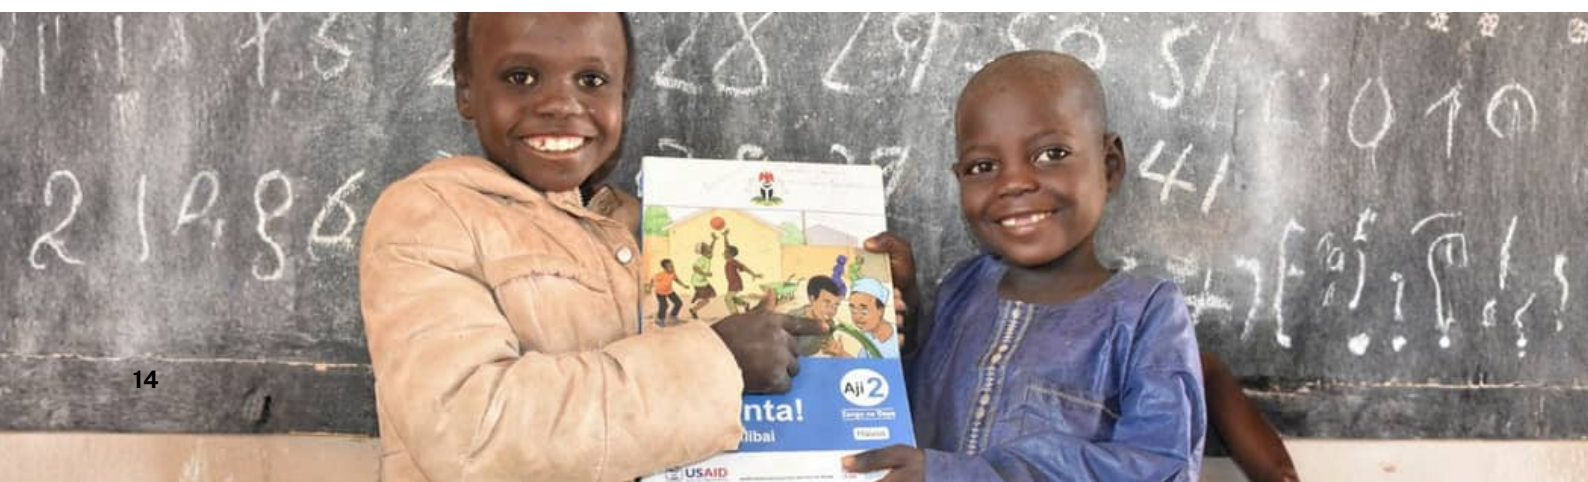

Project Experiences

DONOR	Project Title	OVERVIEW
FCDO/ WFP	Resilience Building And Smallholder Farmers Support Project In Northwest Nigeria	Reached 5700 directly. a multidimensional approach. to address interconnected challenges that vulnerable individuals and households face, especially smallholder farmers, aimed at building their resilience by promoting farmer-led irrigation development (FLID), enhancing access to farming input, market systems access, and establishing community-managed assets with multi-channel non-farm income streams and banks as safety nets. The project will support targeted households throughout production cycles in dry seasons by providing sustainable technologies, skills, and inclusive market engagement mechanisms. The design ensured sustainability through a phased exit strategy that leaves tangible, community-owned systems behind.
FCDO/UNICEF	Multi-sectoral Integrated Resilience Programme (MIRP) in Northwest Nigeria	LHI will provide timely, compassionate services to children at risk of or affected by abuse, neglect, and exploitation, including unaccompanied and separated children, adolescent girls, and those associated with armed groups, to help prevent and reduce harm. Developing individual, household and community income resilience system to address underlying poverty and increase household economic development through technical and vocational development and
Swedish Dev Commission/ Save the Children International	Livelihood, and Peace building project – Durable Solution Yobe Project.	LHI, as one of the consortium partners, is implementing project activities in selected LGAs designed to support the rebuilding of individual, household, and community economic growth through livestock and agricultural support and value chain additions, aligning with the State Government Economic Development Plan on Durable Solutions. Over 2000 households are being served and supported, especially women-headed households
Care International	EnRICH / Mobilizing Nigeria Community Frontline Health Workers Project	Life Helpers Initiative (LHI), in partnership with CARE International and funded by GCPTC, is implementing the EnRICH / Mobilizing Nigeria Community Frontline Health Workers Project, aimed at training, mentoring, and supporting frontline health workers to enhance quality healthcare delivery with greater health outcomes, while working to strengthen community health systems through stronger participation, greater access to essential health services through orientations, referral and linkages. LHI is piloting the Frontline Healthcare Workers Savings & Loan Associations to support the economic development of the healthcare workers

Project Experiences

DONOR	PROJECT TITLE	OVERVIEW
UNICEF / ECM	Leading the Global Agenda to End Child Marriage by 2030 in Zamfara State	This grant was to serve as a pivotal in the transformation of the vulnerable adolescent girls in 3 selected LGAs of Zamfara, from key stakeholders engagement, advocacy to have policy changes as well as to reposition the selected adolescent girls, removing barriers and their vulnerabilities through technical and vocational skill empowerment
ECHO / IRC	Strengthening Resilience through Multi-Sectoral Response in Borno, Zamfara and Sokoto States of Northeast and Northwest Regions of Nigeria.	The International Rescue Committee (IRC), along with local NGOs Life Helpers Initiative (LHI) and CHAD International, proposes a 24-month multi-sectoral Action to provide coordinated life-saving assistance in hard-to-reach areas in Borno, Zamfara and Sokoto States in NE and NW Nigeria. The action's specific objective is to improve ability to meet basic needs and enhance access to health, nutrition, education, WASH, and protection services for vulnerable internally displaced persons (IDPs) and host communities in Gwoza Local Government Area (LGA) in Borno, Anka LGA in Zamfara, and Sabon Birni LGA in Sokoto.
UNICEF/REACH	Reaching and Empowering Adolescent Girls in Northwest Nigeria (REACH)	In collaboration with the Ministry of Women and Children Affairs have been, for some months now, working in Binji supporting enrolled adolescent girls. To further drive our engagement, we would enrich the process by strengthening our grassroots engagement in the selected communities, where we would identify, strengthen and deploy community groups, structures and/or existing protection groups to canvass, enlighten and engage community members on gender-based issues such as domestic violence against boys and girls, hawking etc.
USG/ Management Science for Health	Monitor and Mentor Health Facilities on Malaria Case Management, Data, Management and Malaria in Pregnancy in Plateau State	This is Presidential Malaria Initiative for States supported project is designed to provide technical support to frontline healthcare providers in 327 Primary Healthcare centers in Plateau State to enhance the quality of care and services on malaria treatment in children and pregnant women. It shall also provide key supports for strengthening the relevant state agencies to use data to deliver a comprehensive and responsive malaria intervention in the targeted locations
USG/Project Hope	Accelerating the Control of HIV Epidemic Cluster 3 (ACE-3) Project	This \$43 million valued grant is in support of the facility based comprehensive HIV Treatment for mothers, children and activating community access, care and support in 13 LGAs of the state

USG/ Management Science for Health	Monitor and Mentor Health Facilities on Malaria Case Management, Data, Management and Malaria in Pregnancy in Plateau State	This is Presidential Malaria Initiative for States supported project is designed to provide technical support to frontline healthcare providers in 327 Primary Healthcare centers in Plateau State to enhance the quality of care and services on malaria treatment in children and pregnant women. It shall also provide key supports for strengthening the relevant state agencies to use data to deliver a comprehensive and responsive malaria intervention in the targeted locations
USG/Project Hope	Accelerating the Control of HIV Epidemic Cluster 3 (ACE-3) Project	This N43million valued grant is in support of the facility based comprehensive HIV Treatment for mothers, children and activating community access, care and support in 13 LGAs of the state
USG OHA/ International Rescue Committee	Integrated emergency response to the displaced population	The project, a consortium-led by IRC with COOPI and ALIMA as other partners, LHI is delivering critical health and nutrition services to the displaced persons through an integrated approach using clinical treatment and community approach in Sokoto, leveraging on all existing Primary Health Centers and set-up mobile clinics at the camp. Work through community members to conduct MUAC screening, setting up OTPs, and working with existing OTP and leveraging on the SC sites that we established on the ECHO-supported project in July 2024
USG BHA/Save the Children International	Integrated Multisectoral Lifesaving Assistance for Conflict Affected Households	This supported project under the Office of Humanitarian Affairs, started in 2023, where LHI will be delivering Nutrition, WASH, and Protection services in 65 communities of Damaturu, Gujba, Tamarua, Geidam, and Gulani LGAs. Working directly and indirectly to support the state, LGA Council, and even the community structures to be strengthened to provide appropriate and adequate services. This is a consortium led by SCI

Project Experiences

DONOR	PROJECT TITLE	OVERVIEW
Management Science for Health/USG	Enhancing quality malaria services in Security challenged areas	Enhanced the capacity of the health workforce at the primary level to provide comprehensive malaria services to the people and equally strengthen the overall malaria programming in the state
CARE International / Pfizer Foundation	Reducing Infectious Disease among Children under 5	LHI in consortium with CARE International-led project activities designed to Identify and deliver through the a combination of health strengthening services and community-based, addressing outbreaks of infectious diseases as well as malnourished children within the various selected communities. Enhancing the acceptance and utilization of immunization, health services as a whole and community buy-in in the overall healthcare delivery system
Save the Children International / EU	Developing Resilience for Vulnerable households	Activating and facilitating platforms that supports the progressive growth of person affected by conflicts to develop their livelihood, grow their assets, and be able to develop resiliency for future shocks; capacity growing on financial literacy, entrepreneurship using international approved curriculum on Start and Improve your business, Enterprise your business and GET AHEAD
ZOA Canadian Foodgrain Bank	Increasing resiliency among crisis affected population in Borno	Supported over 1000 households to develop resiliency through basic livelihood development that contributes to their children health and education status
Girls Child Education support, UNICEF / KFW	Implementation of the Girls for Girls (G4G) component of the Resilience Integrated Education Programming for Children and Youth in Yobe State	Mobilized girls to access basic education through enrolment, re-enrolment, retention, and progression. Supporting a positive outcome through the setting of the Girls4Girls group, supporting women's participation in education through the Mothers Association and strong community-based support through the School-Based Management Committees
EU Spotlight Initiative UNICEF	Ending gender violence against women and girls in selected LGAs	Provided immediate supportive platform for survivors through the survivors forum; support the strengthening of community structures, Surveillance Team as well as building the capacity of community case workers in identifying survivors, case management, linking to services as well as referrals; harnessing community-based opportunities to support survivors and their caregivers including those living with disabilities
International Institute of Tropical Agriculture (IITA) / USG	Training of women on goat rearing in pilot in selected 3 Local Government Areas and training on micro processing of legumes and cereals in 12 LGAs	A 2-way combination of nutrition and livelihood approach. Diet quality is pivotal and instrumental to healthy diets and emphasizes adequacy and moderation. Adequacy refers to the consumption of the needed foods or food groups (whole grains, fruits, vegetables, fish, meat, nuts and seeds, beans and legumes, milk, eggs, and dietary fibre), energy, macro, and micronutrients. Adequate nutrition knowledge would result in a key shift from coping mentality to improved household utilization of food and long-term planning. We deployed our nutrition module and embedded nutrition education (content and messaging) and food demonstration to 1220 train women on the importance of dietary diversification to promote the intake of nutritious meals in households in the communities

Project Experiences

DONOR	PROJECT TITLE	OVERVIEW
USG / Palladium Group	Onsite Facility based clinical skills training for healthcare providers at the Primary Health care level	Through the grant under contract model, LHI has been and is implementing an health system intervention that enhanced the knowledge, skills, and competence of over 3200 health providers on child health focusing on integrated child health, nutrition, WASH, malaria, and routine immunization using the LDHF
	Offsite training of community pharmacist and patent proprietors medicine vendors on child health	approach to improve prevention, diagnosis and treatment of childhood illness at Primary Health Facilities along with community outreaches in Bauchi, Ebonyi, Kebbi and Sokoto States. A total of 712 PHCs and community reached working with 235 health-based professional adhoc staffs. 700 CPs and PPMVs in Sokoto and Kebbi State are provided with health technical assistance to deliver child health, maternal and family planning services in Sokoto and Kebbi State covering common health illnesses such as malaria, pneumonia, malnutrition, and family planning
